## FREMONT STREET

This is Las Vegas's original Casino row, a five block area between Main St. & Las Vegas Blvd. Long ago nicknamed "Glitter Gulch" for its colorful riot of neon signs, and here the Casinos are smaller forming a pedestrian-only gambling mall. A 90 foot wide canopy arching over four blocks is the centerpiece of the Freemont Street Experience. More than 12.5 million, state-of-the-art LED modules and an ear splitting, half-million watt sound system combine for this impressive extravaganza.

## HOOVER DAM & LAKE MEAD

Which came first "The Lake or the Dam?" Once known as Boulder Dam it was built during the Great Depression and completed in 1936. Hoover Dam impounds Lake Mead which is the largest reservoir in the United States. Nearly 1,000,000 visit the Dam and power plant each year.

## DEATH VALLEY

Death Valley is the largest, national park in the lower United States as well as the hottest, driest and has the second lowest point in the Western Hemisphere. Badwater Basin rings in at 282 feet below sea level contrasting with its high point Telescope Peak at 11,049 ft.

## THE MOB MUSEUM

The Mob Museum, officially the National Museum of Organized Crime and Law Enforcement is dedicated to featuring the artifacts, stories & history of organized crime in the U.S.A. Some of the most interesting things on display are the Saint Valentine's Day Massacre Wall, a Tommy gun (which can be touched, held and even "pretend" shot, an electric chair and the barber chair Albert Anastasia was murdered in.

## **RED ROCK CANYON**

Red Rock Canyon was designated as Nevada's first National Conservation Area. The area is 195,819 acres and is visited by more than one million people each year. The conservation area showcases large red rock formations, a set of sandstone peaks and walls called the Keystone Thrust.

## **THE NEON MUSEUM**

The Neon Museum features signs from old casinos and other businesses displayed outdoors in the Neon Boneyard. Each of the nearly 150 signs offers a unique story about the personalities who created it, what inspired it, where and when it was made and the role it played in Las Vegas distinctive history.

## **NATIONAL ATOMIC TESTING MUSEUM**

The National Atomic Testing Museum documents the history of nuclear testing at the Nevada Test Site (NTS) in the desert north of Las Vegas. Among its exhibits, covering American nuclear testing is a "Ground Zero Theater" which simulates the experience of observing an atmospheric nuclear test.

## **FOUNTAINS OF BELLAGIO**

Situated between the elegant hotel and the Strip is an 8 acre lake which houses the Fountains of Bellagio. The Fountains are a vast choreographed water feature with performances set to light and music. The fountains consist of a network of pipes with more than 1200 nozzles and 4500 li
